Independent Auditors' Report

To the Board of Directors of Min Aik Technology Co., Ltd.:

Opinion

We have audited the consolidated financial statements of Min Aik Technology Co., Ltd. and its subsidiaries (“the Group”), which comprise the consolidated balance sheet as of December 31, 2025 and 2024, the consolidated statement of comprehensive income, changes in equity and cash flows for the years then ended, and notes to the consolidated financial statements, including a summary of material accounting policies.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as of December 31, 2025 and 2024, and its consolidated financial performance and its consolidated cash flows for the years then ended in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and with the International Financial Reporting Standards (“IFRSs”), International Accounting Standards (“IASs”), interpretations as well as related guidance endorsed by the Financial Supervisory Commission of the Republic of China.

Basis for Opinion

We conducted our audits in accordance with the Regulations Governing Financial Statement Audit and Attestation Engagements of Certified Public Accountants and Standards on Auditing of the Republic of China. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with The Norm of Professional Ethics for Certified Public Accountant of the Republic of China, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis of our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

1. Revenue recognition

Please refer to Note 4(m) “Revenue” of the consolidated financial statements, and note 6(p) “Revenue from contract with customers”.

As the timing of revenue recognition is influenced by the terms agreed upon with customers having large volume of transactions, there is a risk that revenue pertaining to periods shortly before and after the balance sheet date may not be recognized in the appropriate period. Hence, the accuracy of revenue cut-off is considered as one of our key audit matters.

How the matter was addressed in our audit:

Our principal audit procedures included assessing whether appropriate revenue recognition policies and the design and implementation of internal control process are applied; sampling the sales transaction between the reported date, and examine the external documents to evaluate whether the timing of revenue recognition is appropriate.

2. Evaluation of inventory

Please refer to Note 4(g) “Inventory” and Note 5(a) “Significant accounting assumptions and judgments, and major sources of estimation uncertainty” of the consolidated financial statements.

Evaluation of inventory is one of the key judgmental areas for our audit, the Group is primarily involved in the manufacturing of hard disk drive components. Due to the rapid evolution and changes in the series and models of electronic products, it may cause the outdated inventory to become slow-moving or obsolete, resulting in the cost of inventory being higher than the net realizable value. The evaluation of net realizable value of inventory is based on the judgement made by management of the group. Therefore, this whole matter need to be taken into serious consideration.

How the matter was addressed in our audit:

Our principal audit procedures included assessing whether appropriate inventory policies are applied through comparison with accounting standards; sampling the inventory item and comparing the aging of inventory, understanding the origin for estimate the net realized value, evaluating whether the calculation for lower of cost or net realized value is reasonable, and inspecting the inventory sales status subsequent to the reporting date.

Other Matter

The Group has additionally prepared its parent-company-only financial statement as of and for the years ended December 31, 2025 and 2024, on which we have issued an unmodified opinion.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and with the IFRSs, IASs, interpretation as well as related guidance endorsed by the Financial Supervisory Commission of the Republic of China, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group’s ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance, including the Audit Committee, are responsible for overseeing the Group’s financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Standards on Auditing of the Republic of China will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with the Standards on Auditing of the Republic of China, we exercise professional judgment and professional skepticism throughout the audit. We also:

1. Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
4. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
5. Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
6. Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them. All relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partners on the audit resulting in this independent auditors' report are Tsai, Meng-Chuan and Cheng, An-Chih.

Notes to Readers

The accompanying consolidated financial statements are intended only to present the consolidated financial position, financial performance and cash flows in accordance with the accounting principles and practices generally accepted in the Republic of China and not those of any other jurisdictions. The standards, procedures and practices to audit such consolidated financial statements are those generally accepted and applied in the Republic of China.

The independent auditors' report and the accompanying consolidated financial statements are the English translation of the Chinese version prepared and used in the Republic of China. If there is any conflict between, or any difference in the interpretation of the English and Chinese language independent auditors' report and consolidated financial statements, the Chinese version shall prevail.

(English Translation of Consolidated Financial Statements Originally Issued in Chinese)
MIN AIK TECHNOLOGY CO., LTD. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements
For the years ended December 31, 2025 and 2024
(Expressed in thousands of New Taiwan Dollars, Unless Otherwise Specified)

(1) Company history

Min Aik Technology Co., Ltd. (the “Company”) was incorporated on October 3, 1979, as a company limited by shares and registered under the Ministry of Economic Affairs, ROC. The address of the Company’s registered office is 10F. 1, No. 492 1, Sec. 1, Wanshou Rd., Guishan District, Taoyuan City. The Company and subsidiaries (together referred to as the “Group” and individually as “Group entities”) primarily is involved in the design, manufacture, and sale of hard disk drive components, plastic camera components, medical device parts, and mechanical components for optical devices.

(2) Approval date and procedures of the consolidated financial statements:

These consolidated financial statements were authorized for issue by the Board of Directors on March 11, 2026.

(3) New standards, amendments and interpretations adopted:

- (a) The impact of the IFRS Accounting Standards endorsed by the Financial Supervisory Commission, R.O.C. which have already been adopted.

The Group has initially adopted the following new amendments, which do not have a significant impact on its consolidated financial statements, from January 1, 2025:

- Amendments to IAS21 “Lack of Exchangeability”

- (b) The impact of IFRS Accounting Standards endorsed by the FSC but not yet effective

The Group assesses that the adoption of the following new amendments, effective for annual period beginning on January 1, 2026, would not have a significant impact on its consolidated financial statements:

- IFRS 17 “Insurance Contracts” and amendments to IFRS 17 “Insurance Contracts”
- Amendments to IFRS 9 and IFRS 7 “Amendments to the Classification and Measurement of Financial Instruments”
- Annual Improvements to IFRS Accounting Standards—Volume 11
- Amendments to IFRS 9 and IFRS 7 “Contracts Referencing Nature-dependent Electricity”

(Continued)

MIN AIK TECHNOLOGY CO., LTD. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

- (c) The impact of IFRS Accounting Standards issued by IASB but not yet endorsed by the FSC

The following new and amended standards, which may be relevant to the Group, have been issued by the International Accounting Standards Board (IASB), but have yet to be endorsed by the FSC:

Standards or Interpretations	Content of amendment	Effective date per IASB
IFRS 18 “Presentation and Disclosure in Financial Statements”	<p>The new standard introduces three categories of income and expenses, two income statement subtotals and one single note on management performance measures. The three amendments, combined with enhanced guidance on how to disaggregate information, set the stage for better and more consistent information for users, and will affect all the entities.</p> <ul style="list-style-type: none"> ● A more structured income statement: under current standards, companies use different formats to present their results, making it difficult for investors to compare financial performance across companies. The new standard promotes a more structured income statement, introducing a newly defined ‘operating profit’ subtotal and a requirement for all income and expenses to be allocated between three new distinct categories based on a company’s main business activities. ● Management performance measures (MPMs): the new standard introduces a definition for management performance measures, and requires companies to explain in a single note to the financial statements why the measure provides useful information, how it is calculated and reconcile it to an amount determined under IFRS Accounting Standards. ● Greater disaggregation of information: the new standard includes enhanced guidance on how companies group information in the financial statements. This includes guidance on whether information is included in the primary financial statements or is further disaggregated in the notes. 	January 1, 2027 note: On September 25, 2025, the FSC issued a press release announcing that Taiwan will adopt IFRS 18 beginning in 2028. Entities that need to adopt the new standard earlier may do with the endorsement of the FSC.

(Continued)

MIN AIK TECHNOLOGY CO., LTD. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

The Group is evaluating the impact on its consolidated financial position and consolidated financial performance upon the initial adoption of the abovementioned standards or interpretations. The results thereof will be disclosed when the Group completes its evaluation.

The Group does not expect the following other new and amended standards, which have yet to be endorsed by the FSC, to have a significant impact on its consolidated financial statements:

- Amendments to IFRS 10 and IAS 28 “Sale or Contribution of Assets Between an Investor and Its Associate or Joint Venture”
- IFRS 19 “Subsidiaries without Public Accountability: Disclosures” and amendments to IFRS 19 “Subsidiaries without Public Accountability: Disclosures”
- Amendments to IAS 21 “Translation to a Hyperinflationary Presentation Currency”

(4) Summary of material accounting policies:

The significant accounting policies presented in the consolidated financial statements are summarized as follows. The following accounting policies were applied consistently to the periods presented in the financial statements.

(a) Statement of compliance

These consolidated financial statements have been prepared in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers (hereinafter, referred to as “the Regulations”) and the International Financial Reporting Standards, International Accounting Standards, IFRIC Interpretations, and SIC Interpretations endorsed by the Financial Supervisory Commission, ROC.

(b) Basis of preparation

(i) Basis of measurement

Except for the following significant accounts, the consolidated financial statements have been prepared on a historical cost basis:

- 1) Financial instruments at fair value through profit or loss are measured at fair value;
- 2) The defined benefit liabilities (assets) are measured at fair value of the plan assets less the present value of the defined benefit obligation.

(ii) Functional and presentation currency

The functional currency of each Group entity is determined based on the primary economic environment in which the entity operates. The consolidated financial statements are presented in New Taiwan dollars, which is the Company’s functional currency. All financial information presented in New Taiwan dollars has been rounded to the nearest thousand.

(Continued)

MIN AIK TECHNOLOGY CO., LTD. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

(c) Basis of consolidation

(i) Principles of preparation of the consolidated financial statements

The consolidated financial statements comprise the Company and subsidiaries. Subsidiaries are entities controlled by the Group. The Group ‘controls’ an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity.

The financial statements of subsidiaries are included in the consolidated financial statements from the date on which control commences until the date on which control ceases. Intra-group balances and transactions, and any unrealized income and expenses arising from intra-group transactions are eliminated in preparing the consolidated financial statements. The Group attributes the profit or loss and each component of other comprehensive income to the owners of the parent and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance.

The Group prepares consolidated financial statements using uniform accounting policies for like transactions and other events in similar circumstances. Changes in the Group’s ownership interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received will be recognized directly in equity, and the Group will attribute it to the owners of the parent.

(ii) List of subsidiaries in the consolidated financial statements

Name of investor	Name of subsidiary	Principal activity	Shareholding	
			December 31, 2025	December 31, 2024

(Continued)

MIN AIK TECHNOLOGY CO., LTD. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

Name of investor	Name of subsidiary	Principal activity	Shareholding	
			December 31, 2025	December 31, 2024
Good Master	MU-Technology Ptd. Ltd. (MUS)	Holding Company	69.41 %	69.41 %
MUS	MU Technology (M) Sdn.Bhd. (MUM)	Manufacture and sale of hard disk drive components	- %	100.00 %
			(Note 1)	

Note 1: The Company's indirect holding company, MUM, had completed its liquidation procedures in the third quarter of 2025.

(iii) Subsidiaries excluded from the consolidated financial statement: None.

(d) Foreign currencies

(i) Foreign currency transaction

Transactions in foreign currencies are translated into the respective functional currencies of Group entities at the exchange rates at the dates of the transactions. At the end of each subsequent reporting period, monetary items denominated in foreign currencies are translated into the functional currencies using the exchange rate at that date. Non-monetary items denominated in foreign currencies that are measured at fair value are translated into the functional currencies using the exchange rate at the date that the fair value was determined. Non-monetary items denominated in a foreign currency that are measured based on historical cost are translated using the exchange rate at the date of the transaction.

Exchange differences are generally recognized in profit or loss, except for investments in equity securities designated as at fair value through other comprehensive income, which are recognized in other comprehensive income.

(ii) Foreign operations

The assets and liabilities of foreign operations, including goodwill and fair value adjustments arising on acquisition, are translated into the presentation currency at the exchange rates at the reporting date. The income and expenses of foreign operations are translated into the presentation currency at the average exchange rate. Exchange differences are recognized in other comprehensive income.

When a foreign operation is disposed of such that control, significant influence, or joint control is lost, the cumulative amount in the translation reserve related to that foreign operation is reclassified to profit or loss as part of the gain or loss on disposal. When the Group disposes of any part of its interest in a subsidiary that includes a foreign operation while retaining control, the relevant proportion of the cumulative amount is reattributed to non-controlling interest. When the Group disposes of only part of investment in an associate or joint venture that includes a foreign operation while retaining significant influence or joint control, the relevant proportion of the cumulative amount is reclassified to profit or loss.

(Continued)

MIN AIK TECHNOLOGY CO., LTD. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

(e) Cash and cash equivalents

Cash comprises cash on hand and demand deposits. Cash equivalents are short term, highly liquid investments that are readily convertible to known amounts of cash and are subject to an insignificant risk of changes in value. Time deposits which meet the above definition and are held for the purpose of meeting short term cash commitments rather than for investment or other purposes should be recognized as cash equivalents.

(f) Financial instruments

Trade receivables are initially recognized when they are originated. All other financial assets and financial liabilities are initially recognized when the Group becomes a party to the contractual provisions of the instrument. A financial asset (unless it is a trade receivable without a significant financing component) or financial liability is initially measured at fair value plus, for an item not at fair value through profit or loss (FVTPL), transaction costs that are directly attributable to its acquisition or issue. A trade receivable without a significant financing component is initially measured at the transaction price.

(i) Financial assets

All regular way purchases or sales of financial assets are recognized and derecognized on a trade date basis.

On initial recognition, a financial asset is classified as measured at: amortized cost or FVTPL. Financial assets are not reclassified subsequent to their initial recognition unless the Group changes its business model for managing financial assets, in which case all affected financial assets are reclassified on the first day of the first reporting period following the change in the business model.

1) Financial assets measured at amortized cost

A financial asset is measured at amortized cost if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

These assets are subsequently measured at amortized cost, which is the amount at which the financial asset is measured at initial recognition, plus/minus, the cumulative amortization using the effective interest method, adjusted for any loss allowance. Interest income, foreign exchange gains and losses, as well as impairment, are recognized in profit or loss. Any gain or loss on derecognition is recognized in profit or loss.

(Continued)

MIN AIK TECHNOLOGY CO., LTD. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

2) Fair value through profit or loss (FVTPL)

All financial assets not classified as amortized cost or FVOCI described as above are measured at FVTPL, including derivative financial assets. On initial recognition, the Group may irrevocably designate a financial asset, which meets the requirements to be measured at amortized cost or at FVOCI, as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognized in profit or loss.

3) Impairment of financial assets

The Group recognizes loss allowances for expected credit losses (ECL) on financial assets measured at amortized cost (including cash and cash equivalents, amortized costs, notes and trade receivables, other receivables, guarantee deposit paid and other financial assets).

The Group measures loss allowances at an amount equal to lifetime expected credit loss, except for the following which are measured as 12-month ECL :

- Debt securities that are determined to have low credit risk at the reporting date ; and
- Other debt securities and bank balances for which credit risk (i.e. the risk of default occurring over the expected life of the financial instrument) has not increased significantly since initial recognition.

Loss allowance for trade receivables and contract assets are measured at an amount equal to lifetime ECL.

Lifetime of ECLs are the ECLs that result from all possible default events over the expected life of a financial instrument.

12-month ECLs are the portion of ECLs that result from default events that are possible within the 12 month after the reporting date (or a shorter period if the expected life of the instrument is less than 12 months).

The maximum period considered when estimating ECLs is the maximum contractual period over which the Group is exposed to credit risk.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECL, the Group considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis based on the Group's historical experience and informed credit assessment as well as forward-looking information.

(Continued)

MIN AIK TECHNOLOGY CO., LTD. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

ECLs are a probability-weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e the difference between the cash flows due to the Group in accordance with the contract and the cash flows that the Group expects to receive). ECLs are discounted at the effective interest rate of the financial asset.

Loss allowances for financial assets measured at amortized cost are deducted from the gross carrying amount of the assets.

The gross carrying amount of a financial asset is written off when the Group has no reasonable expectations of recovering a financial asset in its entirety or a portion thereof. For corporate customers, the Group individually makes an assessment with respect to the timing and amount of write-off based on whether there is a reasonable expectation of recovery. The Group expects no significant recovery from the amount written off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Group's procedures for recovery of amounts due.

4) Derecognition of financial assets

The Group derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Group neither transfers nor retains substantially all of the risks and rewards of ownership and it does not retain control of the financial asset.

The Group enters into transactions whereby it transfers assets recognized in its statement of balance sheet, but retains either all or substantially all of the risks and rewards of the transferred assets. In these cases, the transferred assets are not derecognized.

(ii) Financial liabilities and equity instruments

1) Classification of debt or equity

Debt and equity instruments issued by the Group are classified as financial liabilities or equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

2) Equity instrument

An equity instrument is any contract that evidences residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued are recognized as the amount of consideration received, less the direct cost of issuing.

3) Treasury shares

When shares recognized as equity are repurchased, the amount of the consideration paid, which includes directly attributable costs, is recognized as a deduction from equity. Repurchased shares are classified as treasury shares. When treasury shares are sold or reissued subsequently, the amount received is recognized as an increase in equity, and the resulting surplus or deficit on the transaction is recognized in capital surplus or retained earnings (if the capital surplus is not sufficient to be written down).

(Continued)

MIN AIK TECHNOLOGY CO., LTD. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

4) Financial liabilities

Financial liabilities are classified as measured at FVTPL. A financial liability is classified as at FVTPL if it is classified as held-for-trading, it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognized in profit or loss.

Other financial liabilities are subsequently measured at amortized cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognized in profit or loss. Any gain or loss on derecognition is also recognized in profit or loss.

5) Derecognition of financial liabilities

The Group derecognizes a financial liability when its contractual obligations are discharged, cancelled, or expired. The Group also derecognizes a financial liability when its terms are modified and the cash flows of the modified liability are substantially different, in which case a new financial liability based on the modified terms is recognized at fair value.

On derecognition of a financial liability, the difference between the carrying amount of a financial liability extinguished and the consideration paid (including any non-cash assets transferred or liabilities assumed) is recognized in profit or loss.

6) Offsetting of financial assets and liabilities

Financial assets and financial liabilities are offset and the net amount presented in the statement of balance sheet when, and only when, the Group currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realize the asset and settle the liability simultaneously.

(g) Inventories

Inventories are measured at the lower of cost and net realizable value. The cost of inventories is based on weighted-average method and includes expenditure incurred in acquiring the inventories, production or conversion costs, and other costs incurred in bringing them to their present location and condition. In the case of manufactured inventories and work in progress, cost includes an appropriate share of production overheads based on normal operating capacity.

Net realizable value is the estimated selling price in the ordinary course of business, less, the estimated costs of completion and selling expenses.

(h) Investment in associates

Associates are those entities in which the Group has significant influence, but not control or joint control, over their financial and operating policies.

Investments in associates are accounted for using the equity method and are recognized initially at cost. The cost of the investment includes transaction costs. The carrying amount of the investment in associates includes goodwill arising from the acquisition, less any accumulated impairment losses.

(Continued)

MIN AIK TECHNOLOGY CO., LTD. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

The consolidated financial statements include the Group's share of the profit or loss and other comprehensive income of those associates, after adjustments to align their accounting policies with those of the Group, from the date on which significant influence commences until the date on which significant influence ceases. The Group recognizes any changes of its proportionate share in the investee within capital surplus, when an associate's equity changes due to reasons other than profit and loss or comprehensive income, which did not result in changes in actual significant influence.

Gains and losses resulting from transactions between the Group and an associate are recognized only to the extent of unrelated Group's interests in the associate.

When the Group's share of losses of an associate equals or exceeds its interests in an associate, it discontinues recognizing its share of further losses. After the recognized interest is reduced to zero, additional losses are provided for, and a liability is recognized, only to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the associate.

The Group discontinues the use of the equity method and measures the retained interest at fair value from the date when its investment ceases to be an associate. The difference between the fair value of retained interest and proceeds from disposing, and the carrying amount of the investment at the date the equity method was discontinued is recognized in profit or loss. The Group accounts for all the amounts previously recognized in other comprehensive income in relation to that investment on the same basis as would have been required if the associates had directly disposed of the related assets or liabilities. If a gain or loss previously recognized in other comprehensive income would be reclassified to profit or loss on the disposal of the related assets or liabilities, the Group reclassifies the gain or loss from equity to profit or loss (as a reclassification adjustment) when the equity method is discontinued. If the Group's ownership interest in an associate is reduced while it continues to apply the equity method, the Group reclassifies the proportion of the gain or loss that had previously been recognized in other comprehensive income relating to that reduction in ownership interest to profit or loss.

When the Group subscribes to additional shares in an associate at a percentage different from its existing ownership percentage, the resulting carrying amount of the investment will differ from the amount of the Group's proportionate interest in the net assets of the associate. The Group records such a difference as an adjustment to investments, with the corresponding amount charged or credited to capital surplus. The aforesaid adjustment should first be adjusted under capital surplus. If the capital surplus resulting from changes in ownership interest is not sufficient, the remaining difference is debited to retained earnings. If the Group's ownership interest is reduced due to the additional subscription to the shares of the associate by other investors, the proportionate amount of the gains or losses previously recognized in other comprehensive income in relation to that associate will be reclassified to profit or loss on the same basis as would be required if the associate had directly disposed of the related assets or liabilities.

(i) Property, plant and equipment

(i) Recognition and measurement

Items of property, plant and equipment are measured at cost, which includes capitalized borrowing costs, less accumulated depreciation and any accumulated impairment losses.

If significant parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

(Continued)

MIN AIK TECHNOLOGY CO., LTD. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

Any gain or loss on disposal of an item of property, plant and equipment is recognized in profit or loss.

(ii) Subsequent cost

Subsequent expenditure is capitalized only if it is probable that the future economic benefits associated with the expenditure will flow to the Group.

(iii) Depreciation

Depreciation is calculated on the cost of an asset less its residual value and is recognized in profit or loss on a straight-line basis over the estimated useful lives of each component of an item of property, plant and equipment.

Land is not depreciated.

The estimated useful lives for the current and comparative years of significant items of property, plant and equipment are as follows:

- 1) Building facilities: 8~50 years
- 2) Machinery: 2~20 years
- 3) Leasehold improvement: 3~15 years
- 4) Office and other equipment: 1~10 years

Depreciation methods, useful lives, and residual values are reviewed at each reporting date and adjusted if appropriate.

(j) Leases

(i) Identifying a lease

At inception of a contract, the Group assesses whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

(ii) As a lessee

The Group recognizes a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

(Continued)

MIN AIK TECHNOLOGY CO., LTD. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be reliably determined, the Group's incremental borrowing rate. Generally, the Group uses its incremental borrowing rate as the discount rate.

Lease payments included in the measurement of the lease liability comprise the following:

- fixed payments, including in-substance fixed payments;
- variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;
- amounts expected to be payable under a residual value guarantee; and
- payments for purchase or termination options that are reasonably certain to be exercised.

The lease liability is measured at amortized cost using the effective interest method. It is remeasured when:

- there is a change in future lease payments arising from the change in an index or rate; or
- there is a change in the Group's estimate of the amount expected to be payable under a residual value guarantee; or
- there is a change in the lease term resulting from a change of its assessment on whether it will exercise an option to purchase the underlying asset, or
- there is a change of its assessment on whether it will exercise a extension or termination option; or
- there is any lease modifications

When the lease liability is remeasured, other than lease modifications, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or in profit and loss if the carrying amount of the right-of-use asset has been reduced to zero.

When the lease liability is remeasured to reflect the partial or full termination of the lease for lease modifications that decrease the scope of the lease, the Group accounts for the remeasurement of the lease liability by decreasing the carrying amount of the right-of-use asset to reflect the partial or full termination of the lease, and recognize in profit or loss any gain or loss relating to the partial or full termination of the lease.

The Group presents right-of-use assets that do not meet the definition of investment and lease liabilities as a separate line item respectively in the statement of financial position.

The Group has elected not to recognize right-of-use assets and lease liabilities for short-term leases of staff dormitory that have a lease term of 12 months or less. The Group recognizes the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

(Continued)

MIN AIK TECHNOLOGY CO., LTD. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

(k) Research & development

Expenditure on research activities is recognized in profit or loss as incurred.

Development expenditure is capitalized only if the expenditure can be measured reliably, the product or process is technically and commercially feasible, future economic benefits are probable and the Group intends to, and has sufficient resources to, complete development and to use or sell the asset. Otherwise, it is recognized in profit or loss as incurred. Subsequent to initial recognition, development expenditure is measured at cost, less accumulated amortization and any accumulated impairment losses.

Subsequent expenditure is capitalized only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditure, including expenditure on internally generated goodwill and brands, is recognized in profit or loss as incurred.

(l) Impairment – non-derivative financial assets

At each reporting date, the Group reviews the carrying amounts of its non-financial assets (other than inventories, and deferred tax assets) to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. Goodwill is tested annually for impairment.

For impairment testing, assets are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or CGUs. Goodwill arising from a business combination is allocated to CGUs or groups of CGUs that are expected to benefit from the synergies of the combination.

The recoverable amount of an asset or CGU is the greater of its value in use and its fair value less costs to sell. Value in use is based on the estimated future cash flows, discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU.

An impairment loss is recognized if the carrying amount of an asset or CGU exceeds its recoverable amount. Impairment losses are recognized in profit or loss.

(m) Revenue

(i) Revenue from contracts with customers

Revenue is measured based on the consideration to which the Group expects to be entitled in exchange for transferring goods or services to a customer. The Group recognizes revenue when it satisfies a performance obligation by transferring control of a good or a service to a customer. The accounting policies for the Group's main types of revenue are explained below.

(Continued)

MIN AIK TECHNOLOGY CO., LTD. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

1) Sale of goods—electronic components

The Group recognizes revenue when control of the products has transferred, being when the products are delivered to the customer, the customer has full discretion over the channel and price to sell the products, and there is no unfulfilled obligation that could affect the customer's acceptance of the products. Delivery occurs when the products have been shipped to the specific location, the risks of obsolescence and loss have been transferred to the customer, and either the customer has accepted the products in accordance with the sales contract, the acceptance provisions have lapsed, or the Group has objective evidence that all criteria for acceptance have been satisfied.

A receivable is recognized when the goods are delivered as this is the point in time that the Group has a right to an amount of consideration that is unconditional.

2) Financing components

The Group does not expect to have any contracts when the period between the transfer of the promised goods or services to the customer and payment by the customer exceeds one year. As a consequence, the group does not adjust any of the transaction prices for the time value of money.

(n) Employee benefits

(i) Defined contribution plans

Obligations for contributions to defined contribution plans are expensed as the related service is provided.

(ii) Defined benefit plans

The Group's net obligation in respect of defined benefit plans is calculated separately for each the plan by estimating the amount of future benefit that employees have earned in the current and prior periods, discounting that amount and deducting the fair value of any plan assets.

The calculation of defined benefit obligations is performed annually by a qualified actuary using the projected unit credit method. When the calculation results in a potential asset for the Group, the recognized asset is limited to the present value of economic benefits available in the form of any future refunds from the plan or reductions in future contributions to the plan. To calculate the present value of economic benefits, consideration is given to any applicable minimum funding requirements.

Remeasurements of the net defined benefit liability, which comprise actuarial gains and losses, the return on plan assets (excluding interest) and the effect of the asset ceiling (if any, excluding interest), are recognized immediately in other comprehensive income, and accumulated in retained earnings within equity. The Group determines the net interest expense (income) on the net defined benefit liability (asset) for the period by applying the discount rate used to measure the defined benefit obligation at the beginning of the annual period to the then-net defined benefit liability (asset). Net interest expense and other expenses related to defined benefit plans are recognized in profit or loss.

(Continued)

MIN AIK TECHNOLOGY CO., LTD. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

(iii) Short-term employee benefits

Short-term employee benefits are expensed as the related service is provided. A liability is recognized for the amount expected to be paid if the Group has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

(o) Income taxes

Income taxes comprise current taxes and deferred taxes. Except for expenses related to business combinations or recognized directly in equity or other comprehensive income, all current and deferred taxes are recognized in profit or loss.

Current taxes comprise the expected tax payables or receivables on the taxable profits (losses) for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax payables or receivables are the best estimate of the tax amount expected to be paid or received that reflects uncertainty related to income taxes, if any. It is measured using tax rates enacted or substantively enacted at the reporting date.

Deferred taxes arise due to temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and their respective tax bases. Deferred taxes are recognized except for the following:

- (i) temporary differences on the initial recognition of assets and liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profits (losses) at the time of the transaction;
- (ii) temporary differences related to investments in subsidiaries, associates and joint arrangements to the extent that the Group is able to control the timing of the reversal of the temporary differences and it is probable that they will not reverse in the foreseeable future; and
- (iii) taxable temporary differences arising on the initial recognition of goodwill.

Deferred tax assets are recognized for the carry forward of unused tax losses, unused tax credits, and deductible temporary differences to the extent that it is probable that future taxable profits will be available against which they can be utilized. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefits will be realized; such reductions are reversed when the probability of future taxable profits improves.

Deferred taxes are measured at tax rates that are expected to be applied to temporary differences when they reverse, using tax rates enacted or substantively enacted at the reporting date, and reflect uncertainty related to income taxes, if any.

Deferred tax assets and liabilities are offset if the following criteria are met:

- (i) the Group has a legally enforceable right to set off current tax assets against current tax liabilities; and

(Continued)

MIN AIK TECHNOLOGY CO., LTD. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

- (ii) the deferred tax assets and the deferred tax liabilities relate to income taxes levied by the same taxation authority on either:
- 1) the same taxable entity; or
 - 2) different taxable entities which intend to settle current tax assets and liabilities on a net basis, or to realize the assets and liabilities simultaneously, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered.

(p) Earnings per share

The Group discloses the Company's basic and diluted earnings per share attributable to ordinary shareholders of the Company. Basic earnings per share are calculated as the profit attributable to ordinary shareholders of the Company divided by the weighted-average number of ordinary shares outstanding. Diluted earnings per share are calculated as the profit attributable to ordinary shareholders of the Company divided by the weighted-average number of ordinary shares outstanding after adjustment for the effects of all potentially dilutive ordinary shares, including employee compensation.

(q) Operating segments

An operating segment is a component of the Group that engages in business activities from which it may earn revenues and incur expenses (including revenues and expenses relating to transactions with other components of the Group). Operating results of the operating segment are regularly reviewed by the Group's chief operating decision maker to make decisions about resources to be allocated to the segment and to assess its performance. Each operating segment consists of standalone financial information.

(5) Significant accounting assumptions and judgments, and major sources of estimation uncertainty:

In preparing these consolidated financial statements, management has made judgments and estimates about the future, including climate-related risks and opportunities, that affect the application of the accounting policies and the reported amount of assets, liabilities, income and expenses. Actual results may differ from these estimates.

The management continues to monitor the accounting estimates and assumptions. The management recognizes any changes in accounting estimates during the period and the impact of those changes in accounting estimates in the next period.

Information about judgments made in applying accounting policies that have the most significant effects on the amounts recognized in the consolidated financial statements is as follows:

Judgment regarding control of subsidiaries

Although the Group is the largest shareholder of Min Aik Precision Industrial Co., Ltd (MAP), the Group still cannot assign more than half of the total number of MAP's directors, and it also cannot obtain more than half of the voting rights at a shareholders' meeting. Therefore, it is determined that the Group only has significant influence on MAP.

(Continued)

MIN AIK TECHNOLOGY CO., LTD. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

Information about assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment within the next financial year is as follows:

(a) Valuation of inventories

As inventories are stated at the lower of cost or net realizable value, the Group estimates the net realizable value of inventories for obsolescence and unmarketable items at the end of the reporting period and then writes down the cost of inventories to net realizable value. The net realizable value of the inventory is mainly determined based on assumptions as to future demand within a specific time horizon. Due to the rapid industrial transformation, there may be significant changes in the net realizable value of inventories.

The Group's accounting policies include measuring financial and non-financial assets and liabilities at fair value through profit or loss. The Group's financial instrument valuation group conducts independent verification on fair value by using data sources that are independent, reliable, and representative of exercise prices. This financial instrument valuation group also periodically adjusts valuation models, conducts back-testing, renews input data for valuation models, and makes all other necessary fair value adjustments to assure the rationality of fair value. The Group strives to use market observable inputs when measuring assets and liabilities.

Different levels of the fair value hierarchy to be used in determining the fair value of financial instruments are as follows:

- (a) Level 1: quoted prices (unadjusted) in active markets for identifiable assets or liabilities.
- (b) Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (ie as prices) or indirectly (ie derived from prices).
- (c) Level 3: inputs for the assets or liability that are not based on observable market data.

For any transfer within the fair value hierarchy, the impact of the transfer is recognized on the reporting date. Please refer to note 6(s) for assumptions used in measuring fair value.

(6) Explanation of significant accounts:

(a) Cash and cash equivalents

	December 31, 2025	December 31, 2024
Cash on hand and demand deposits	\$ 295,793	396,874
Time deposits	<u>361,461</u>	<u>363,252</u>
Cash and cash equivalents in consolidated statement of cash flows	<u>\$ 657,254</u>	<u>760,126</u>

Please refer to note 6(s) for the interest rate risk, and the fair value sensitivity analysis of the financial assets and liabilities of the Group.

(Continued)

MIN AIK TECHNOLOGY CO., LTD. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

(b) Financial assets at fair value through profit or loss

	December 31, 2025	December 31, 2024
Stocks listed on domestic markets	\$ -	-

The Group disposes of financial assets at fair value through profit or loss in 2024. Please refer to note 6(r) for gains on valuation of financial assets.

(c) Notes and accounts receivable (including related parties)

	December 31, 2025	December 31, 2024
Notes receivable	\$ 655	65
Accounts receivable	1,230,724	1,150,729
Accounts receivable due from related parties	7,324	7,204
Less: allowance for impairment	(5,853)	(6,452)
	\$ 1,232,850	1,151,546

The Group applies the simplified approach to provide for its expected credit losses, i.e. the use of lifetime expected loss provision for all receivables on December 31, 2025 and 2024. To measure the expected credit losses, trade receivables have been grouped based on shared credit risk characteristics and the days past due, as well as incorporated forward looking information, including macroeconomic and relevant industry information. The loss allowance provision in Taiwan was determined as follows:

December 31, 2025			
	Gross carrying amount	Weighted- average loss rate	Loss allowance provision
Current	\$ 1,194,340	0%~1%	1,206
1 to 90 days past due	40,350	0%~21%	922
91 to 180 days past due	389	0%~26%	101
More than 360 days past due	3,624	100%	3,624
	\$ 1,238,703		5,853
December 31, 2024			
	Gross carrying amount	Weighted- average loss rate	Loss allowance provision
Current	\$ 1,113,298	0%~1%	1,110
1 to 90 days past due	39,701	0%~22%	1,023
91 to 180 days past due	770	0%~28%	212
181 to 360 days past due	456	0%~100%	334
More than 360 days past due	3,773	100%	3,773
	\$ 1,157,998		6,452

(Continued)

MIN AIK TECHNOLOGY CO., LTD. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

The movement in the allowance for notes and trade receivable were as follows:

	<u>2025</u>	<u>2024</u>
Balance at January 1	\$ 6,452	17,092
Impairment losses reversed	(599)	(10,641)
Foreign exchange gains	<u>-</u>	<u>1</u>
Balance at December 31	<u>\$ 5,853</u>	<u>6,452</u>

As of December 31, 2025 and 2024, none of the aforementioned notes and trade receivables of the Group were pledged as collateral.

(d) Inventories

	<u>December 31, 2025</u>	<u>December 31, 2024</u>
Raw materials	\$ 437,965	409,903
Work in progress	122,904	70,724
Finished goods and products	<u>397,529</u>	<u>344,172</u>
	<u>\$ 958,398</u>	<u>824,799</u>

For the years ended December 31, 2025 and 2024, the Group recognized the following items as cost of goods sold:

	<u>2025</u>	<u>2024</u>
Cost of goods sold	\$ 3,185,580	2,860,587
Unallocated fixed manufacturing overhead resulting from the actual production being lower than the normal capacity	165,037	185,340
Write-down and retirement of inventory	7,822	9,177
Others	<u>(9,594)</u>	<u>(4,867)</u>
	<u>\$ 3,348,845</u>	<u>3,050,237</u>

As of December 31, 2025 and 2024, the Group did not provide any inventories as collateral.

(e) Investments accounted for using equity method

A summary of the Group's financial information for equity-accounted investees at the reporting date is as follows:

	<u>December 31, 2025</u>	<u>December 31, 2024</u>
Associates	<u>\$ 769,410</u>	<u>815,935</u>

(Continued)

MIN AIK TECHNOLOGY CO., LTD. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

- (i) The information on material associates

Name of Associates	Main business activities	Country	Ownership (%)	
			December 31, 2025	December 31, 2024
MAP	Manufacturing of electronic parts and components	Taiwan	38.84 %	38.78 %

Although the Group is the largest shareholder of its associate MAP, considering that the Group cannot obtain more than half of the board seats or shareholder's voting rights at a shareholders' meeting, it is determined that the Group only has significant influence on MAP.

The fair value of material associate to the Group listed on the Stock Exchange is as follows:

	December 31, 2025	December 31, 2024
MAP	<u>\$ 1,160,275</u>	<u>1,367,451</u>

The following consolidated financial information of significant associate has been adjusted according to individually prepared IFRS financial statements of these associates:

	December 31, 2025	December 31, 2024
Current assets	\$ 1,754,525	2,008,011
Non-current assets	1,368,534	1,247,067
Current liabilities	(1,095,109)	(939,375)
Non-current liabilities	(127,127)	(308,002)
Net assets	<u>\$ 1,900,823</u>	<u>2,007,701</u>
Net assets attributable to non-controlling interests	<u>\$ 1,892,976</u>	<u>1,999,854</u>
	2025	2024
Operating revenue	<u>\$ 2,387,660</u>	<u>2,396,125</u>
Net income	\$ 13,105	182,775
Other comprehensive income	7,067	38,743
Total comprehensive income	<u>\$ 20,172</u>	<u>221,518</u>
Comprehensive income attributable to controlling interests	<u>\$ 20,172</u>	<u>221,518</u>

	2025	2024
Total cash outflow for leases	<u>\$ 48,471</u>	<u>47,879</u>

(l) Employee benefits

(i) Defined benefit plans

The present value of the defined benefit obligations and the fair value of the plan assets of the Company were as follows:

	December 31, 2025	December 31, 2024
Present value of defined benefit obligations	\$ 33,905	39,317
Fair value of plan assets	<u>(49,656)</u>	<u>(47,297)</u>
Net defined benefit assets	<u><u>\$ (15,751)</u></u>	<u><u>(7,980)</u></u>

The Group makes defined benefit plan contributions to the pension fund account with Bank of Taiwan that provides pensions for employees upon retirement. Plans (covered by the Labor Standards Law) entitle a retired employee to receive retirement benefits calculated based on years of service and average monthly salary for the six months prior to retirement.

(Continued)

MIN AIK TECHNOLOGY CO., LTD. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

1) Composition of plan assets

The Group allocates pension funds in accordance with the Regulations for Revenues, Expenditures, Safeguard and Utilization of the Labor Retirement Fund, and such funds are managed by the Bureau of Labor Funds, Ministry of Labor. With regard to the utilization of the funds, minimum earnings shall be no less than the earnings attainable from two-year time deposits with interest rates offered by local banks.

The Group's Bank of Taiwan labor pension reserve account balance amounted to \$49,656 thousand as of December 31, 2025. For information on the utilization of the labor pension fund assets, including the asset allocation and yield of the fund, please refer to the website of the Bureau of Labor Funds, Ministry of Labor.

2) Movements in the present value of the defined benefit obligations

The movement in the present value of the defined benefit obligations of the Group were as follows:

	<u>2025</u>	<u>2024</u>
Defined benefit obligation at January 1	\$ 39,317	40,893
Current service costs and interest	739	649
Re-measurement loss (gain):		
- Return on plan assets excluding interest income	(4,862)	2,256
- Actuarial loss (gain) arising from		
-financial assumptions	1,415	(1,621)
Benefit paid	<u>(2,704)</u>	<u>(2,860)</u>
Defined benefit obligation at December 31	<u>\$ 33,905</u>	<u>39,317</u>

3) Movements of the defined benefit plan assets

The movements in the present value of the defined benefit plan assets for the Group were as follows:

	<u>2025</u>	<u>2024</u>
Fair value of plan assets at January 1	\$ 47,297	44,559
Interest income	725	554
Re-measurement loss (gain)		
- Return on plan assets excluding interest income	3,341	4,007
Contribution paid by employer	997	1,037
Benefits paid	<u>(2,704)</u>	<u>(2,860)</u>
Fair value of plan assets at December 31	<u>\$ 49,656</u>	<u>47,297</u>

(Continued)

MIN AIK TECHNOLOGY CO., LTD. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

4) Expenses recognized in profit or loss

The expenses recognized in profit or loss for the Group were as follows:

	<u>2025</u>	<u>2024</u>
Current service cost	\$ 150	150
Net interest of net liabilities (assets) for defined benefit obligations	<u>(136)</u>	<u>(55)</u>
	<u>\$ 14</u>	<u>95</u>
Operating cost	\$ 5	34
Selling expenses	1	8
Administrative expenses	5	29
Research and development expenses	<u>3</u>	<u>24</u>
	<u>\$ 14</u>	<u>95</u>

5) Actuarial assumptions

The principal actuarial assumptions at the reporting date were as follows:

	<u>2025</u>	<u>2024</u>
Discount rate	1.300 %	1.600 %
Future salary increase rate	1.500 %	1.500 %

The expected allocation payment to be made by the Group to the defined benefit plans for the one-year period after the reporting date is \$992 thousand.

The weighted-average lifetime of the defined benefits plans is 8 years.

6) Sensitivity analysis

If the actuarial assumptions had changed, the impact on the present value of the defined benefit obligation shall be as follows:

<u>Actuarial assumptions</u>	<u>Influences of defined obligations</u>	
	<u>Increase of 0.5%</u>	<u>Decrease of 0.5%</u>
2025.12.31		
Discount rate 1.3%	(1,174)	1,241
Future salary increase rate 1.5%	1,197	(1,144)
2024.12.31		
<u>Actuarial assumptions</u>		
	<u>Increase of 0.5%</u>	<u>Decrease of 0.5%</u>
Discount rate 1.6%	(1,343)	1,423
Future salary increase rate 1.5%	1,375	(1,311)

(Continued)

MIN AIK TECHNOLOGY CO., LTD. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

Reasonably possible changes at the reporting date to one of the relevant actuarial assumptions, holding other assumptions constant, would have affected the defined benefit obligations by the amounts shown above. The method used in the sensitivity analysis is consistent with the calculation of pension liabilities in the balance sheets.

There was no change in the method and assumptions used in the preparation of the sensitivity analysis for 2025 and 2024.

(ii) Defined contribution plans

The Group allocates 6% of each employee's monthly wages to the labor pension personal account at the Bureau of Labor Insurance in accordance with the provisions of the Labor Pension Act. Under this defined contribution plan, the Group allocates a fixed amount to the Bureau of Labor Insurance without additional legal or constructive obligations.

The Group recognized pension costs under the defined contribution method amounting to \$36,065 thousand and \$33,772 thousand for the years ended December 31, 2025 and 2024, respectively.

(m) Income taxes

(i) The components of income tax for the years 2025 and 2024 were as follows:

	<u>2025</u>	<u>2024</u>
Current tax expense	\$ 2,313	28,122
Deferred tax expense (income)	<u>213</u>	<u>(14,609)</u>
Income tax expense	<u>\$ 2,526</u>	<u>13,513</u>

(ii) The amount of income tax expense recognized in other comprehensive income for 2025 and 2024 was as follows:

	<u>2025</u>	<u>2024</u>
Foreign currency translation differences from foreign operations	<u>\$ 13,062</u>	<u>29,344</u>

(iii) Reconciliation of income tax and profit or loss before tax for 2025 and 2024 was as follows:

	<u>2025</u>	<u>2024</u>
Profit (loss) excluding income tax	\$ (41,574)	<u>77,394</u>
Income tax using the Company's domestic tax rate	(19,874)	6,576
Effect of tax rates in foreign jurisdiction	(1,076)	(1,759)
Changes in unrecognized deferred tax asset and deferred tax liability	6,401	(721)
Permanent differences	12,281	(8,766)
Changes in provision in prior periods and others	<u>4,703</u>	<u>18,183</u>
	<u>\$ 2,435</u>	<u>13,513</u>

(Continued)

MIN AIK TECHNOLOGY CO., LTD. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

(iv) Deferred tax assets and liabilities

1) Unrecognized deferred tax assets

Deferred tax assets have not been recognized for 2025 and 2024 was as follows:

	December 31, 2025	December 31, 2024
The carry forward of unused tax losses	\$ 753,571	709,503
Tax effect of deductible temporary differences	<u>540,751</u>	<u>540,404</u>
	<u>\$ 1,294,322</u>	<u>1,249,907</u>

Deferred tax assets have not been recognized in respect of these items because it is not probable that future taxable profit will be sufficient to utilize deferred tax asset.

As of December 31, 2025, the Group's unrecognized deduction of tax loss amounts in \$192,593 thousand. Deduction may be higher under condition of using the tax rate in foreign jurisdiction up to \$813,279 thousand.

2) Recognized deferred tax assets and liabilities

Changes in the amount of deferred tax assets and liabilities for 2025 and 2024 were as follows:

	Investment income recognized under the equity method	Others	Total
Deferred tax liabilities:			
Balance on January 1, 2025	\$ 238,796	2,566	241,362
Recognized in profit or loss	(26,380)	557	(25,823)
Recognized in other comprehensive income	<u>13,062</u>	<u>-</u>	<u>13,062</u>
Balance on December 31, 2025	<u>\$ 225,478</u>	<u>3,123</u>	<u>228,601</u>
Balance on January 1, 2024	\$ 229,227	2,896	232,123
Recognized in profit or loss	(19,775)	(330)	(20,105)
Recognized in other comprehensive income	<u>29,344</u>	<u>-</u>	<u>29,344</u>
Balance on December 31, 2024	<u>\$ 238,796</u>	<u>2,566</u>	<u>241,362</u>

3) As of December 31, 2025, the deduction period for taxable losses of Group is as follows:

Name of company	Year of loss	Unused tax loss	Expiry date
The Company	2022	\$ 59,708	2032
GIT	2025	2,887	2035
Green Far	2023	9	2033
"	2024	975	2034
"	2025	1,539	2035

(v) Examination and approval

The Company's, Green Far's and GIT's tax returns for the years through 2023 were examined and approved by the Taipei National Tax Administration.

(n) Capital and other equity

(i) Capital surplus

The balances of capital surplus as of December 31, 2025 and 2024, were as follows:

	December 31, 2025	December 31, 2024
Additional paid-in capital	\$ 1,127,039	1,127,039
Treasury share transactions	39,954	39,954
Gain on disposal of assets	7	7
Change of equity of associates accounted for using equity method	<u>265,333</u>	<u>265,333</u>
	<u>\$ 1,432,333</u>	<u>1,432,333</u>

(Continued)

MIN AIK TECHNOLOGY CO., LTD. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

According to the ROC Company Act, capital surplus can only be used to offset a deficit, and only the realized capital surplus can be used to increase the common stock or be distributed as cash dividends. The aforementioned realized capital surplus includes capital surplus resulting from premium on issuance of capital stock and earnings from donated assets received. According to the Regulations Governing the Offering and Issuance of Securities by Securities Issuers, capital increases by transferring paid-in capital in excess of par value should not exceed 10% of the total common stock outstanding.

The resolution that capital surplus will be used to pay cash dividends of \$0.25 per share, for a total of \$34,391 thousand had been approved during the shareholders' meeting on June 18, 2024.

(ii) Retained earnings

The Company's article of incorporation stipulates that Company's net earnings should first be used to offset the prior years' deficits, if any, before paying any income taxes. Of the remaining balance, 10% is to be appropriated as legal reserve, and then any remaining profit together with any undistributed retained earnings shall be distributed according to the distribution plan proposed by the Board of Directors and submitted to the stockholders' meeting for approval.

Before the distribution of dividends, the Company shall first take into consideration its operating environment, industry developments, and the long-term interests of stockholders, as well as its programs to maintain operating efficiency and meet its capital expenditure budget and financial goals in determining the stock or cash dividends to be paid. After the above appropriations, current and prior-period earnings that remain undistributed will be proposed for distribution by the Board of Directors, and a meeting of shareholders will be held to decide on this matter. The cash dividends shall not be more than 10% of total dividends. Distribution of earnings may be exempted if surplus of earnings is less than \$0.5 per share.

1) Legal reserve

When a company incurs no loss, it may, pursuant to a resolution by a shareholders' meeting, distribute its legal reserve by issuing new shares or by distributing cash, and only the portion of legal reserve which exceeds 25% of the capital may be distributed.

2) Special reserve

A portion of current-period earnings and undistributed prior-period earnings shall be reclassified as a special earnings reserve during earnings distribution. The amount to be reclassified should equal the current-period total net reduction of other shareholders' equity. Similarly, a portion of undistributed prior-period earnings shall be reclassified as a special earnings reserve (and is not qualified for earnings distribution) to account for cumulative changes to other shareholders' equity pertaining to prior periods. Amounts of subsequent reversals pertaining to the net reduction of other shareholders' equity shall qualify for additional distributions. As of December 31, 2025 and 2024, the amount of reversal of special reserve are \$512,443 thousand.

In addition, the resolution that special reserve will be used to offset the losses for the year 2023, for a total of \$217,720 thousand had been approved during the shareholders' meeting on June 18, 2024.

(Continued)

MIN AIK TECHNOLOGY CO., LTD. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

3) Earnings distribution

Earnings distributions for 2024 were decided via shareholders' meetings held on June 26, 2025.

	2024	
	Dividends per share (NT dollars)	Amount
Dividend distributions to shareholders:		
Cash from unappropriated retained earnings	\$ 0.35	48,147
Legal reserve appropriated		\$ 6,999

(o) Earnings (loss) per share

(i) Basic earnings (loss) per share

The calculation of basic earnings (loss) per share and diluted earnings per share at 2025 were calculated as follows:

	2025	2024
Profit (loss) attributable to ordinary shareholders of the Company	\$ (53,880)	62,442
Weighted-average number of ordinary shares at December 31 (thousand shares)	137,564	137,564
Basic earnings (loss) per share (dollar)	\$ (0.39)	0.45

(ii) Diluted earnings per share

	2024
Profit attributable to ordinary shareholders of the Company	\$ 62,442
Weighted-average number of ordinary shares at December 31 (thousand shares)	137,564
Impact on employee compensation	197
Weight-average number of ordinary shares (diluted) at December 31 (thousand shares)	137,761
Diluted earnings per share (dollar)	\$ 0.45

In calculating the dilutive effect of employee compensation, which is considered as issuing all shares, the fair value is based on the quoted market price on the day before the company's reporting date.

There will not be a dilutive effect by adjusting based on the potential ordinary shares in 2025. Thus, the basic earnings per share for 2025 is disclosed only.

The amount of revenue recognized for the years ended December 31, 2025 and 2024 that was included in the contract liability balance at the beginning of the period were \$16,839 thousand and \$22,065 thousand, respectively.

(Continued)

MIN AIK TECHNOLOGY CO., LTD. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

(q) Employee compensation and directors' and supervisors' remuneration

On June 26, 2025, the Company resolved at the shareholders' meeting to amend its Articles of Incorporation. According to the amended Articles, the Company should contribute no less than 1% of the profit as employee compensation, less than 3% of the profit as directors' and supervisors' remuneration and 1% of the profit as base-level employee compensation when there is profit for the year. However, when there are still accumulated loss, the compensation should be reserved. The recipients of shares and cash may include the employees of the Company's affiliated companies who meet certain conditions.

Prior to the amendment, the Articles of Incorporation stipulated that, the Company should contribute no less than 1% of the profit as employee compensation and less than 3% as directors' and supervisors' remuneration when there is profit for the year. However, when there are still accumulated loss, the compensation should be reserved. The recipients of shares and cash may include the employees of the Company's affiliated companies who meet certain conditions.

In addition, since the Company was at a net loss position before tax for the year ended December 31, 2025, the company did not contribute to employee compensation, directors' and supervisors' remuneration, and base-level employee compensation. For the year ended December 31, 2024, the Company estimated its employee remuneration and directors' and supervisors' remuneration amounting to \$4,767 thousand and \$1,589 thousand, respectively. The estimated amounts mentioned above are calculated based on the net profit before tax, excluding the remuneration to employees, directors, and supervisors of each period, multiplied by the percentage of remuneration to employees, directors and supervisors as specified in the Company's articles. These remunerations were expensed under operating costs or operating expenses during 2024.

The amounts, as stated in the consolidated financial statements, are identical to those of the actual distributions for 2025, related information would be available at the Market Observation Post System website. In addition, since the Company was at a net loss position before tax for the year ended December 31, 2023, the company did not contribute to employee compensation or directors' and supervisors' remuneration.

(r) Non-operating income and expenses

The other gains and losses for the years ended December 31, 2025 and 2024, were as follows:

	<u>2025</u>	<u>2024</u>
Foreign exchange gains (losses)	\$ (50,212)	5,442
Impairment losses on property, plant and equipment and financial assets	(28,069)	(33,625)
Gains on disposal property, plant and equipment	1,264	2,509
Gains on valuation of financial assets	-	17,615
Other	-	(1,501)
	<u>\$ (77,017)</u>	<u>(9,560)</u>

(Continued)

MIN AIK TECHNOLOGY CO., LTD. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

(s) Financial instruments

(i) Credit risk

1) Credit risk

Credit risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations, which arises from the Group's accounts receivable and security investments.

a) Accounts receivable and other receivables

The Group has established a credit policy under which each new customer is analyzed individually for creditworthiness before the Group's standard payment and delivery terms and conditions are offered. The Group's review includes external ratings, when available, and in some cases bank references. These limits are reviewed periodically. Customers that fail to meet the Group's benchmark creditworthiness may transact with the Group only on a prepayment basis.

b) Investment

The credit risk exposure in bank deposits, fixed-income investment, and other financial instruments is measured and monitored by the Group's finance department. As the Group deals with banks and other external parties with good credit standing and with financial institutions, corporate organizations, and government agencies which are graded above investment level, the management believes that the Group does not have any compliance issues, and therefore, there is no significant credit risk.

2) Other information about credit risk was as follows:

a) Exposure to credit risk

Credit risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations and arises principally from the Group's receivables from customers and investments in debt securities. As of December 31, 2025 and 2024, the carrying amount of financial assets, which represents the maximum amount exposed to credit risk, was \$1,945,365 thousand and \$1,971,027 thousand, respectively. Furthermore, the bank deposits of the Company are made with various banks, all of which are with good credits, therefore, there is no significant credit risks.

b) The Group's credit risk is mainly affected by the credit characteristics of each creditor. This is also an impact on credit risk from the business of the customer. As of December 31, 2025 and 2024, 91% of the ending balance of accounts receivable arose from sales to individual customers constituting the primary customers.

(Continued)

MIN AIK TECHNOLOGY CO., LTD. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

(ii) Liquidity risk

Liquidity risk is a risk that the Group is unable to meet the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Group's approach to managing liquidity is to ensure, as much as possible, that it always has sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Group's reputation.

The following are the contractual maturities of financial liabilities:

- 1) Based on the date on which the Group may be required to make an early repayment and on the preparation of the financial liabilities' undiscounted cash flows, including interest.
- 2) Other non-derivative financial liabilities' maturity analysis prepared in accordance with the agreed repayment date.

The following table shows the contractual maturities of financial liabilities, including estimated interest payments and excluding the impact of netting agreements.

	<u>Carrying amount</u>	<u>Contractual cash flows</u>	<u>Within 1 year</u>	<u>1 ~ 2 years</u>	<u>2 ~5 years</u>	<u>Over 5 years</u>
December 31, 2025						
Non-derivative financial liabilities:						
Short-term and long-term borrowings	\$ 383,747	390,396	290,736	27,756	71,904	-
Accounts payable	634,366	634,366	634,366	-	-	-
Accounts payable-related parties	195,837	195,837	195,837	-	-	-
Lease liabilities	57,504	58,641	46,027	6,979	3,441	2,194
Other financial liabilities	<u>187,707</u>	<u>187,707</u>	<u>187,707</u>	<u>-</u>	<u>-</u>	<u>-</u>
	<u>\$ 1,459,161</u>	<u>1,466,947</u>	<u>1,354,673</u>	<u>34,735</u>	<u>75,345</u>	<u>2,194</u>
December 31, 2024						
Non-derivative financial liabilities:						
Short-term and long-term borrowings	\$ 519,942	525,209	410,263	106,439	8,507	-
Accounts payable	522,883	522,883	522,883	-	-	-
Accounts payable-related parties	159,378	159,378	159,378	-	-	-
Lease liabilities	84,630	86,695	40,912	37,156	5,323	3,304
Other financial liabilities	<u>175,289</u>	<u>175,289</u>	<u>175,289</u>	<u>-</u>	<u>-</u>	<u>-</u>
	<u>\$ 1,462,122</u>	<u>1,469,454</u>	<u>1,308,725</u>	<u>143,595</u>	<u>13,830</u>	<u>3,304</u>

The Group does not expect that the cash flows included in the maturity analysis could occur significantly earlier or at significantly different amounts.

(Continued)

MIN AIK TECHNOLOGY CO., LTD. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

(iii) Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates, and equity prices, will affect the Group's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimizing the return.

1) Exposure to foreign currency risk

The Group's significant exposure to foreign currency risk was as follows:

	December 31, 2025			December 31, 2024		
	Foreign currency	Exchange rate	TWD	Foreign currency	Exchange rate	TWD
Financial assets						
Monetary items						
USD	\$ 49,873	31.430	1,567,505	48,337	32.785	1,584,724
SGD	1,994	24.45	48,751	2,203	24.13	53,157
Financial liabilities						
Monetary items						
USD	21,636	31.430	680,023	17,385	32.785	569,975
THB	255	1.0019	255	4,240	0.962	4,080

The Group's exposure to foreign currency risk arises from the translation of the foreign currency exchange gains and losses on cash and cash equivalents, trade and other receivables, loans and borrowings, and trade and other payables that are denominated in foreign currency. A weakening (strengthening) of 1% of the foreign currency against the TWD as of December 31, 2025, would have increased (decreased) the net loss before tax by \$9,360 thousand. In addition, a weakening (strengthening) of 1% of the foreign currency against the TWD as of December 31, 2024, would have increased (decreased) the net profit before tax by \$10,638 thousand. The analysis is performed on the same basis for both periods.

As the Group deals in diverse foreign currencies, gains or losses on foreign exchange were summarized as a single amount. In 2025 and 2024, the foreign exchange gain, including both realized and unrealized, amounted to \$(50,212) thousand and \$5,442 thousand, respectively.

MIN AIK TECHNOLOGY CO., LTD. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

2) Interest rate analysis

The details of financial assets and liabilities exposed to interest rate risk were as follows:

	Carrying amount	
	December 31, 2025	December 31, 2024
Fixed-rate instruments:		
Financial assets	\$ 254,843	277,196
Financial liabilities	(269,000)	(373,000)
	\$ (14,157)	(95,804)
Variable-rate instruments:		
Financial assets	\$ 355,878	470,102
Financial liabilities	(114,747)	(146,942)
	\$ 241,131	323,160

The following sensitivity analysis is based on the exposure to interest rate risk of the derivative and non-derivative financial instruments on the reporting date. If the interest rate had increased or decreased by 0.25%, the net loss before tax would have increased (decreased) by \$603 thousand for the year ended December 31, 2025, assuming all other variable factors were constant. In addition, if the interest rate had increased or decreased by 0.25%, the net profit before tax would have increased (decreased) by \$808 thousand for the year ended December 31, 2024, assuming all other variable factors were constant. This mainly resulted from borrowings at variable interest rates.

The Group's financial liabilities at fixed interest rates are measured using the amortized cost method. Since the change in market interest rate at the end of each reporting period had no impact on profit and loss, disclosure of the sensitivity to changes in fair value is not necessary.

(iv) Fair value of financial instrument

1) Fair value and carrying amount

The carrying amount and fair value of the Group's financial assets and liabilities, including the information on fair value hierarchy were as follows; however, except as described in the following paragraphs, for financial instruments not measured at fair value whose carrying amount is reasonably close to the fair value, and lease liabilities, disclosure of fair value information is not required:

Notes to the Consolidated Financial Statements

2) Valuation techniques for financial instruments not measured at fair value

Non-derivative financial instruments

If the quoted prices in active markets are available, the market price is established as the fair value.

A financial instrument is regarded as being quoted in an active market if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency and those prices represent actual and regularly occurring market transactions on an arm's-length basis.

Quoted market prices may not be indicative of the fair value of an instrument if the activity in the market is infrequent, the market is not well-established, only small volumes are traded, or bid-ask spreads are very wide. Determining whether a market is active involves judgment.

Measurements of fair value of financial instruments held by the Company are based on a valuation technique or quoted price from a competitor. Fair value measured by a valuation technique can be extrapolated from similar financial instruments, the discounted cash flow method, or other valuation technique including a model using observable market data at the reporting date.

Financial instruments without an active market are classified according to their fair value categories and attributes: equity instruments without public quoted prices, which uses the market comparable company method, estimation basis being the earnings before tax, depreciation, amortization and interest, comparable to other listed company's multiplier. The estimation has been adjusted for the discounting effect due to the lack of market liquidity of the security.

3) Reconciliation of Level 3 fair values

	Fair value through profit or loss
Opening balance, January 1, 2024	\$ 168,208
Recognized in profit or loss	18,917
Disposal	(187,125)
Ending Balance, December 31, 2024	\$ -

The above total gains and losses for the years ended December 31, 2024 were recorded under other gains and losses.

(t) Financial risk management

(i) Structure of risk management

The Group's risk management policies are established to identify and analyze the risks faced by the Group, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Group's activities. The Group, through its training and management standards and procedures, aims to develop a disciplined and constructive control environment in which all employees understand their roles and obligations.

The Group's Board of Directors oversees how management monitors compliance with the Group's risk management policies and procedures and reviews the adequacy of the risk management framework in relation to the risks faced by the Group. The Group's Board of Directors is assisted in its oversight role by Internal Audit. Internal Audit undertakes both regular and ad hoc reviews of risk management controls and procedures, the results of which are reported to The Group's Board of Directors.

(ii) The Group is exposed to the following risks arising from financial instruments:

- 1) Credit risk
- 2) Liquidity risk
- 3) Market risk

This note presents information on exposure to each of the above risks and on the objectives, policies, and processes as for measuring and managing risk. For detailed information, please refer to 6(s).

(u) Capital management

The Group manages capital to safeguard the capacity to continue to operate. The management uses the asset-liability ratio to manage capital. This ratio is debt divided by assets. Debt is derived from the loans, accounts payable, expense payable and other liabilities.

As of December 31, 2025 and 2024, the Group's asset-liability ratios were 41% and 40%, respectively. As of December 31, 2025 and 2024, there were no changes in the Group's approach to capital management.

(v) Investing and financing activities affecting non-current cash flow

The Group's investing and financing activities which did not affect the current cash flow in the years ended 2025 as each, were as follows:

- (i) For acquisition of right-of-use assets, please refer to notes 6(g).

(Continued)

MIN AIK TECHNOLOGY CO., LTD. AND SUBSIDIARIES

Notes to the Consolidated Financial Statements

(14) Segment information:

(a) General information

The Group identifies its operating segments based on the decision of the chief operating decision maker (CODM). The Group's operating segments are EMS (Electronics Manufacturing Service), Automatic Equipment Service, and Commerce Service. Except for EMS, the operating segments did not meet the quantitative threshold for individually reportable segments nor are they aggregated with other operating segments.

EMS's main operating activities are designing and manufacturing consumer electronics end products. Those of Automatic Equipment Service are designing and manufacturing automatic machinery for industrial use. The main operating activity of Commerce Service is trading business. Since the strategy of each segment is different, it is necessary to separate them for management.

(b) Information about reportable segments and their measurement and reconciliations

The Group uses the internal management report that the chief operating decision maker reviews as the basis to determine resource allocation and make a performance evaluation. The internal management report includes profit before taxation, but not including any extraordinary activity and foreign exchange gain or losses because taxation, extraordinary activity, and foreign exchange gain or losses are managed on a group basis, and hence they are not able to be allocated to each reportable segment. In addition, not all reportable segments include depreciation and amortization of significant non-cash items. The reportable amount is similar to that in the report used by the chief operating decision maker.

The operating segment accounting policies are similar to those described in note 4 "significant accounting policies" except for the recognition and measurement of pension cost, which is on a cash basis.

The Group treated intersegment sales and transfers as third-party transactions. They are measured at market price.
